Although I came in only asking for a fishing license, he suggested rod and reel set-ups and accessories... He did not dismiss me because I was a woman in a typically male department.” (+)

• “…All he said was it was on sale and walked away. We weren’t comfortable in the fact that no one greeted us or tried to help us. Employees were talking to one another, would look right at us, and keep talking. As a woman not familiar at all with the equipment or accessories, I would not make a purchase for my son, son-in-law or grandsons who are all fisherman.” (-)

• “This store would be my one stop shop regarding fishing. I got all the needed information with great customer service to back it up. The employees welcomed me and gave me that knowledge I was seeking. I left feeling confident, excited and open to fly fishing.” (+)
